|-----------|---|
| AZ-65-B-1 | View of Irving intake system showing shed and a portion of the concrete cover (foreground). Looking south-southwest |
| AZ-65-B-2 | View of Irving Intake System showing shed and steel flume. Looking west-northwest |
| AZ-65-B-3 | View of steel flume (Irving intake system) that is covered with old flume stock, flattened to protect from debris, animals and daylight, and is supported by wood trestles, as it continues downhill toward the Irving Powerhouse. Truck in photo provides scale. Looking north |
